QUEENSLAND BALLET

Presents

CLOUDLAND

Choreographed by Francois Klaus

Brisbane awoke on a November morning in 1982 to find that the Cloudland ballroom had been destroyed overnight.

More than just a ballroom, Cloudland had been the focus of Brisbane's social life during the heady Big Band era, with many romances blossoming under its spinning mirror balls.

Romantic, nostalgic and humorous, this universal story of love and loss is supported by the versatile musicians of *Blackwood*, live on stage.
